Deadline for manuscript
submissions:

closed (20 October 2023)

Message from the Guest Editor

Dear Colleagues,

This Special Issue will focus on molecular advances in nano-mechanical measurements of cells properties using techniques such as scanning force microscopy, laser pinzette, or optical tweezers. Topics of interest will include investigation of cancer cells, erythrocytes, or endothelial cells. Measuring the nanomechanical properties of cells presents a major challenge for researchers in this area. Open questions regarding the effective role of cytoskeleton or connected proteins such as E-cadherin are still not totally understood, and therefore, efforts are required from the scientific community to overcome experimental issues, which have hampered actual knowledge. In this issue, the principles and techniques used in studies of cell biomechanics will be one of main themes. The publication of original articles and reviews will contribute to the overview progress in the area of cytom mechanics, paving the way toward a deeper understanding of the still hidden physiobiological mechanisms involved in the mechanical properties of cells.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
