

Aberrations of DNA Repair Pathways in Prostate Cancer 2.0

Guest Editor:

Prof. Dr. Stergios Boussios

1. Faculty of Life Sciences & Medicine, School of Cancer & Pharmaceutical Sciences, King's College London, London SE1 9RT, UK

2. Medway NHS Foundation Trust, Windmill Road, Gillingham ME7 5NY, Kent, UK

3. Kent Medway Medical School, University of Kent, Canterbury CT2 7LX, Kent, UK

4. AELIA Organization, 9(th)Km Thessaloniki-Thermi, 57001 Thessaloniki, Greece

Deadline for manuscript submissions:

20 January 2025

Message from the Guest Editor

Prostate cancer is the second most common neoplasm in men worldwide and the second leading cause of cancer deaths in Western countries. In this editorial, we highlight the biology of deleterious inherited or acquired DNA repair pathway aberrations in prostate cancer. The manuscripts should be focused on but are not only limited to:

- Prostate risk assessment in the era of next-generation sequencing;
- Prognostic biomarkers in metastatic castration-resistant prostate cancer;
- Molecular signatures in prostate cancer;
- Aberrations of DNA repair pathways in prostate cancer;
- Germline genetic variants in prostate cancer;
- PARP inhibitors in prostate cancer;
- Targeting androgen receptor activity in prostate cancer;
- Resistance to androgen receptor targeting therapies in prostate cancer;
- Anti-angiogenesis in prostate cancer.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
