# (Di)electrical and Catalytic Functionality in Advanced (Bio)materials: Synthesis and Structure-Properties Investigation

Guest Editors:

#### Dr. Jana Pisk

Department of Chemistry, Faculty of Science, University of Zagreb, Zagreb, Croatia

#### Dr. Luka Pavic

Division of Materials Chemistry, Laboratory for Functional Materials, Rudjer Boskovic Institute, 10000 Zagreb, Croatia

Deadline for manuscript submissions: **20 November 2024**

## Message from the Guest Editors

We invite you to contribute to this Special Issue of MDPI's *International Journal of Molecular Science*, named "(Di)electrical and Catalytic Functionality in Advanced (Bio)materials: Synthesis and Structure–Properties Investigation". This Special Issue welcomes novel manuscripts dealing with previously unpublished advances in the following areas:

- 1. Design of novel advance (bio)-based materials/systems followed by their optimized preparation techniques (e.g., using green methods along with post-processing);
- 2. Use of conventional and advanced characterization techniques (alone or in combination) and monitoring (in situ/operando) of (micro)structural characteristics under steady or variable conditions (frequency, temperature, atmosphere, substrate etc.) that have a significant influence on the final properties (thermal, (di)electrical, catalytic, mechanochemical, and other (in)directly influenced by structural modifications and compositions) and structure–properties correlations;
- 3. Application and compatibility studies: implementation of prepared advanced (bio)materials in target application areas (e.g., catalysis, sensors, battery components, etc.)

# **Editor-in-Chief**

#### Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

#### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
