Deadline for manuscript  
submissions:

**closed (31 January 2023)**

### Message from the Guest Editor

Dear Colleagues,

Cutting-edge biomedicines have a particular emphasis on the development of novel phytochemicals and nanomaterials for disease diagnosis, treatment, and monitoring treatment response of diseases. Phytochemicals comprise a large portion of current-day pharmaceutical agents. These structurally unique agents function by novel mechanisms of action against serious metabolic diseases.

In this context, this Special Issue aims to provide a forum for communication among scientists in the fields of phytochemical and nanomaterial sciences, and nanophytotheranostics. The research topic is designed to bring up recent findings of newly identified antidotes as natural products and nanomaterials on this platform to combat various diseases. We would like to invite review and original articles that focus on understanding in vitro and in vivo efficacy and pharmacological and toxicological properties of natural products and nanomaterials especially as antidisease agents. Articles pertaining to any disease and therapeutic models are also welcome to this Special Issue.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
