Deadline for manuscript  
submissions:

**closed (31 March 2022)**

### Message from the Guest Editor

Dear Colleagues,

Cancer is characterized by an abnormal proliferation of tumor cells in the body, resistance to cell death, and other hallmarks that lead to the development of a tumor mass with potential to metastasize and spread to the body. Many of the drugs that are currently used in therapeutics originate from natural compounds. More than 60% of the agents available to treat cancer are connected to natural sources. These pluripotent stem cells are the main culprits of tumor resistance to chemotherapy.

This Special Issue focuses on natural compounds as scaffolds for the discovery of new anticancer drugs. We welcome submissions covering, but not limited to, the following subtopics:

Isolation and identification of bioactive compounds from natural sources;

Biological activity of known or previously isolated natural compounds;

In vitro and in vivo assays;

Mechanism of action of natural compounds;

Drug design and drug synthesis;

Machine learning, MD simulations, QSAR, rational drug design.

Dr. Dharmendra K. Yadav

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
