Graduate School, Gyeongsang  
National University (GNU), Jinju  
52828, Republic of Korea

Deadline for manuscript  
submissions:

**closed (28 March 2024)**

### Message from the Guest Editors

Dear Colleagues,

The absorption of light energy by the plant is the basis for photosynthesis, and growth and development. However, different photoreceptors in the plant specifically recognize different wavelengths of light signals to regulate growth and development. As researchers have put various effort to reveal the roles of light in the plant for a long period of time, more and more underlying mechanisms at cellular and molecular levels are revealed, making this as one of the most interesting research topics in current plant science.

In this special issue, we would like to invite authors to publish original research papers and critical reviews on 'Cellular and Molecular Mechanisms of Plant Responses to Light'. Although it is not exclusive, the focus will be on expression of genes, biosynthesis of metabolites and antioxidants, resistance to stresses, photomorphogenesis, photoperiodic responses, and nutrient uptake of plants in response to light.

Prof. Dr. Qichang Yang

Prof. Dr. Byoung Ryong Jeong

## Editor-in-Chief

### Prof. Dr. José L. Quiles

Department of Physiology,  
Institute of Nutrition and Food  
Technology “Jose Mataix”,  
Biomedical Research Center,  
University of Granada, Avda.  
Conocimiento s/n, 18100 Armilla,  
Granada, Spain

## Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
