Deadline for manuscript
submissions:

closed (30 January 2023)

Message from the Guest Editor

Dear Colleagues,

This Special Issue is the continuation of our previous Special Issues "Molecular Features Distinguishing Gastric Cancer Subtypes", "Molecular Pathways and Candidate Biomarkers" and "Gastric Cancers: Molecular Pathways and Candidate Biomarkers 3.0".

The aim of this Special Issue is to provide new findings regarding molecular pathways and biomarkers that could improve the diagnosis and/or the prognostic classification of gastric cancer, and to resume their potential application in GC detection and classification, or in clinics.

Keywords:

- gastric cancer
- pathogenesis
- immune response
- Helicobacter pylori
- genomics
- proteomics
- diagnostic marker
- prognostic marker

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
