Message from the Guest Editor

Dear Colleagues,

Gestational diabetes mellitus (GDM) is one of the most common pregnancy-related health conditions. The majority of women developing GDM have peripheral insulin resistance related to being overweight and obese. GDM increases the risk for the development of type 2 diabetes and cardiovascular disease in women. Moreover, GDM is associated with elevated incidence of complications during delivery, fetal postpartum hypoglycemia, and congenital defects. In addition, GDM is associated with altered fetal growth as well as obesity, type 2 diabetes (T2D), and heart disease in the offspring as they age. Considerable interest is focused on finding biomarkers and mechanisms that explain GDM risk, as well as the mechanisms that condition the offspring for an increased risk of disease. This Special Issue will focus on biomarkers and mechanisms in humans and animal model research. Authors are invited to submit manuscripts that address risk factors, biomarkers, and mechanisms of GDM development and their impact on their offspring. In addition, authors may also discuss therapies and interventions for GDM.

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
