Deadline for manuscript
submissions:

31 August 2020

Message from the Guest Editors

One major field of advance in glycoscience and its role in biology is in the domain of host–microbial interactions. Most microbial interactions with host surfaces are mediated by carbohydrate–protein interactions to establish pathogenic or commensal relationships. In addition to the roles identified in host–pathogen interactions, our understanding of the role of gastrointestinal tract mucosal surface in colonisation of the host gut by commensal microbiome is in its infancy. Many factors, including diet, influence gut glycosylation and the microbial population and thus have an impact on their interactions and cross-talk, thus effecting human gut health and disease.

This Issue will elucidate the role of microbial or host glycosylation in host–microbe interactions in human health and disease.

Message from the Editorial Board

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed by the **Science Citation Index Expanded** (Web of Science), MEDLINE (PubMed), Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 13.4 days after submission; acceptance to publication is undertaken in 2.2 days (median values for papers published in this journal in the first half of 2020).
