Deadline for manuscript  
submissions:

**closed (26 March 2021)**

### Message from the Guest Editors

Dear Colleague,

The aim of this Special Issue is to provide an overview of recent advances in the field of “Immune Response to Cancer”. We therefore invite researchers to submit original papers and reviews to shed further light on the complex interaction between the immune system and neoplastic progression.

Potential topics include (but are not limited to):

- The role of the immune system in the establishment and progression of tumor
- Immunotherapy and immuno-oncology interventions
- High dimensional profiling of the tumor immune microenvironment
- Mechanisms of immune-mediated resistance to cancer therapy
- Imaging the immune system in cancer

Dr. Marco Erreni

Dr. Diletta Di Mitri

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
