Message from the Guest Editors

Dear Colleague,

The aim of this Special Issue is to provide an overview of recent advances in the field of “Immune Response to Cancer”. We therefore invite researchers to submit original papers and reviews to shed further light on the complex interaction between the immune system and neoplastic progression.

Potential topics include (but are not limited to):

- The role of the immune system in the establishment and progression of tumor
- Immunotherapy and immuno-oncology interventions
- High dimensional profiling of the tumor immune microenvironment
- Mechanisms of immune-mediated resistance to cancer therapy
- Imaging the immune system in cancer
