35392 Giessen, Germany

Deadline for manuscript
submissions:

closed (20 September 2018)

Message from the Guest Editor

Dear Colleagues,

This Special Issue is a continuation of our 2016 Special Issue, “Lysosomal Storage Disorders: Novel Concepts, Therapeutic Aspects and Beyond”.

The purpose of this Special Issue is to summarize our current understanding about the molecular features of LSDs and the involvement of various cellular pathways, such as autophagy, neuroinflammation, microgliosis and signaling in their pathogenesis. We also highly welcome papers addressing the molecular aspects of current and prospective therapies for LSDs, as well as novel concepts and hypothesis about these disorders, including their connections to more common diseases, such as Alzheimer or Parkinson. However, papers addressing disease phenotypes or clinical studies without a clear molecular emphasis are not within the scope of this issue. We encourage the submission of review articles and original research papers.

Prof. Dr. Ritva Tikkanen

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
