Deadline for manuscript
submissions:

30 May 2024

Message from the Guest Editor

Dear Colleagues,

Lung cancer is the most common cancer in Poland and world-wide. The prognosis of lung cancer depends on the disease stage at diagnosis. In patients with advanced lung cancer, significant prognostic factors are performance status, fatigue, malnutrition, depression and treatment-related toxicity. Cancer cachexia is associated with a poor prognosis and high risk of death. This Special Issue is open for submissions on the following topics and areas:

Novel drugs and therapeutic approaches for lung cancer;
Molecular mechanism for anti-lung cancer or cancer-preventive effects;

In vitro, in vivo and clinical studies related to lung cancer at the molecular level;

Usage of the therapeutic approaches in conjunction with cancer chemotherapeutic drugs;

Challenges and innovative approaches for anti-lung cancer drug development;

Novel approaches for lung cancer prevention and intervention;

Production of anti-lung cancer agents using biotechnology;

Pharmacokinetics and pharmacogenomic studies on anti-lung cancer drugs.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
