### Message from the Collection Editors

Dear Colleagues,

The main goal of this thematic issue is to provide information on the state-of-art in the field of medicinal chemistry in different areas of drug discovery and development. Special attention is focused on new biologically active compounds and synthetic strategies related to design and study of novel potential anti-viral agents, oncolytics, cardiovascular drugs, neuroprotective, cognition-enhancing compounds and some others. Novel synthetic approaches for creation multi-target-directed-ligands (MTDL), as well as monotarget strategy for drug discovery will be discussed. Contemporary approaches for improvement and focusing drug delivery on specific targets and bioavailability of drug-candidates will be provided and analyzed.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. José L. Quiles

Department of Physiology,  
Institute of Nutrition and Food  
Technology “Jose Mataix”,  
Biomedical Research Center,  
University of Granada, Avda.  
Conocimiento s/n, 18100 Armilla,  
Granada, Spain

## Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
