Message from the Guest Editors

This Special Issue intends to improve our understanding of the “Interaction between the Plant Rhizosphere and Soil Organisms”. Submissions could consist of research on topics including but not limited to:

- Diversity of soil microorganisms;
- Soil microorganisms in forest ecosystems;
- Rhizosphere diversity;
- Interaction between plants and their microbial communities;
- Functions of rhizosphere microorganisms;
- Microorganisms synthesizing plant growth regulators;
- Biological plant protection;
- Genetic diversity among soil microbial communities;
- Novel bioactive compound isolation and identification in plants and soil.

We would like to take this opportunity to welcome the submission of research articles, reviews, as well as technical notes and communications, on these related topics.
