

## Molecular Bases of Senescence

Guest Editors:

**Prof. Dr. Giorgio Fanò-Illic**

**Prof. Dr. Patrizia Mecocci**

**Prof. Dr. Stefania Fulle**

Deadline for manuscript  
submissions:

**closed (31 March 2021)**

### Message from the Guest Editors

This Special Issue aims to highlight the contributions of epigenetic and eugenic factors in establishing the longevity and life span of a living organism. In particular:

- the presence or not of a unique centre able to determine the senescence of the whole organism
- the molecular effects of environmental inductors (oxidative stress, pro-inflammatory factors, caloric supply, nutrients, etc.);
- the different mechanisms: (a) cellular (proteostasis, autophagy, inflammation, etc.); (b) signalling (NF- $\kappa$ B, TOR, sirtuins, etc.); and (c) the intercellular pathways (localized growth factors, miRNA, etc.) able to accelerate or inhibit the aging process; and
- the aspects related to the senescence of the muscular apparatus (sarcopenia) and alterations of the nervous system (degeneration/regeneration ratio, brain areas with different sensitivities, etc.) including those of cognitive and pathological interest as well as the Alzheimer's disease and Parkinson's disorder.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maurizio Battino

Department of  
Odontostomatologic and  
Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of  
Medicine, Università Politecnica  
delle Marche, Via Ranieri 65,  
60100 Ancona, Italy

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
