174 Edobashi, Tsu, Mie 514-8507,
Japan

Deadline for manuscript
submissions:

closed (30 November 2022)

Message from the Guest Editor

Fibrosis is a common pathway to organ injury and failure. The existence of cardiac fibrosis is associated with poor prognosis in cardiomyopathy, hypertension, heart failure, and coronary artery disease. Furthermore, cardiac fibrosis can be a platform of lethal and/or incessant arrhythmia. Therefore, regular evaluation and follow-up of cardiac fibrosis are important in symptomatic and even asymptomatic patients. Cardiac fibrosis includes interstitial fibrosis, perivascular fibrosis, and necrotic scar. Each process is determined by the settings of inflammatory cells, cardiomyocytes, endothelial cells, fibroblasts and myofibroblasts, collagen, and the extracellular matrix. We hope to review the present knowledge of cardiac fibrosis in terms of molecular mechanisms, clinical evaluation, and present and future therapy, which can bind basic and clinical researchers together.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
