Prof. Dr. Bent Honoré

- 1. Department of Biomedicine, Aarhus University, Aarhus, Denmark
- 2. Department of Clinical Medicine, Aalborg University, Aalborg, Denmark

Deadline for manuscript submissions:

closed (15 May 2022)

Message from the Guest Editors

Dear Colleagues,

Retinal and corneal dystrophies can occur due to genetic and non-genetic factors (lifestyle, age, etc), which can sometimes cooperate in the onset and/or progression of a disease. In this regard, the research of biomarkers and the identification of specific molecular pathways are fundamental to better understand the different ocular pathologies and in some cases also provide tools for a differential molecular diagnosis.

In this special issue, we are looking for research results including new findings in the fields of retinal and corneal pathology from different perspectives, in particular, genetic mechanisms and treatment strategies. The aim is to broaden the direction and possibilities of ocular disorders research. We are looking forward to and will be welcoming your invaluable work in this issue.

Dr. Raffaella Cascella Prof. Dr. Bent Honoré *Guest Editors*

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (IJMS, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. IJMS publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in IJMS and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
