### Message from the Guest Editors

Dear Colleagues,

In this Special Issue, we will overview the major challenges and crucial design issues for development of bioactive packaging. We welcome articles with a strong focus on preparation and characterization of materials, both traditional and new, for packaging applications endowed with biological activity, including antimicrobial and antioxidant activity, or with specific sensors to monitor product quality and properties. Also review articles in the field are welcome.

- active packaging
- biopolymers
- sensors
- sustainable packaging
- nanomaterials
- antimicrobial packaging
- antioxidant packaging
- bio-based materials
- food packaging

Please feel free to contact us if you have interest in our special issue.
