Faculty of Medicine, Jagiellonian  
University Medical College, 16  
Grzegorzeczka Street, 31-531  
Cracow, Poland

**Prof. Dr. Binghe Wang**

Department of Chemistry,  
Georgia State University, Atlanta,  
GA 30303, USA

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editors

Endogenously produced gaseous signaling molecules such as hydrogen sulfide (H<sub>2</sub>S), nitric oxide (NO) and carbon monoxide (CO) have been shown to exert anti-inflammatory, vasoactive and anti-oxidative effects, among many other properties. Their pleiotropic effects raise an intriguing question about their mechanism(s) of action (MOA(s)).

This Special Issue of the International Journal of Molecular Sciences aims to gather articles focused on recent developments in the study of H<sub>2</sub>S, NO or CO, either produced endogenously or delivered from pharmaceutical donors, in health and disease. Review articles or manuscripts on original research regarding H<sub>2</sub>S, CO or NO donors, the cross-talk among these signaling molecules, or their novel mechanisms are within the scope of this Special Issue.

an Open Access Journal by MDPI

## Editor-in-Chief

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
