### Message from the Guest Editors

We invite you to contribute a full research paper or review article for peer-review and possible publication in our Special Issue “Self-Assembly and Design of Polyfunctional Nanosystems”. This Special Issue will be devoted to (i) fundamental aspects of self-assembly of amphiphilic compounds including surfactants, polymers, macrocycles, and mixed systems on their basis; (ii) potential application of these systems in practice, with special emphasis on drug delivery and other aspects of biomedicine; (iii) combination of aforementioned amphiphilic compounds with other nanomaterials resulting in new hybrid composite materials with diverse potential applications.

Deadline for manuscript submissions:

**19 November 2020**

## Message from the Editorial Board

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:**—free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed by the **Science Citation Index Expanded** (Web of Science), MEDLINE (PubMed), Scopus and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 13.4 days after submission; acceptance to publication is undertaken in 2.2 days (median values for papers published in this journal in the first half of 2020).
