

Recent Research of Phytochemicals in Health and Disease

Guest Editors:

Dr. Sachiko Koyama

Nephrology Department, Indiana
University School of Medicine,
Indianapolis, IN, USA

Prof. Dr. Thomas Heinbockel

Department of Anatomy, College
of Medicine, Howard University,
Washington, DC 20059, USA

Prof. Dr. Vonnice Shields

Biological Sciences Department,
Fisher College of Science and
Mathematics, Towson University,
Towson, MD, USA

Deadline for manuscript
submissions:

closed (20 April 2026)

Message from the Guest Editors

Although phytochemicals have been used for medical practices for thousands of years, recently, their biological effects have been determined in detail at the molecular and gene expression level. We still need published scientific evidence to enhance our understanding of their effects and side effects in order to improve our health and recover from injuries and diseases.

Phytochemicals can be used in multiple ways to improve or maintain our health. In this Special Issue, we invite papers that focus on the effects/side effects of phytochemicals, delivery methods and formulation of phytochemicals to enhance their effects, effects on brain function (anxiety, cognitive function, etc.), regeneration and wound healing, and treatment and/or prevention from diseases. Papers can also focus on the use of phytochemicals as drugs, as supplements for drugs to improve the effects of drugs, and as supplements to improve or maintain healthy conditions. All of these topics can be addressed in original papers or reviews.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. José L. Quiles

Department of Physiology,
Institute of Nutrition and Food
Technology “Jose Mataix”,
Biomedical Research Center,
University of Granada, Avda.

Granada, Spain

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
