and Cell Biology, Vienna Institute
of Biotechnology (ViBT),
University of Natural Resources
and Life Sciences (BOKU), Vienna,
Austria

Assoc. Prof. Dr. Stéphanie Robert

Department of Forest Genetics
and Plant Physiology, Umeå
Plant Science Centre, Swedish
University of Agricultural
Sciences (SLU), Umeå, Sweden

Deadline for manuscript
submissions:

closed (30 September 2017)

Message from the Guest Editors

Dear Colleagues,

The plant hormone auxin mediates diverse processes in plant development, such as embryo and fruit development, apical dominance, tropisms, vascular patterning, abscission, as well as axis formation. Most cellular auxin responses modulate the expression of a wide range of genes, which jointly define plant growth. In this Special Issue, we will focus on auxin, its fundamental action and cross talk with other hormones. We will highlight recent studies, which have delineated the pathways of auxin transport, metabolism, perception, and signalling.

Dr. Jürgen Kleine-Vehn

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
