Deadline for manuscript
submissions:

31 March 2021

Message from the Guest Editors

Dear Colleagues,

Genome sequence-based investigations are emerging as a key area in bacterial research. Bacterial interactions with the host—and infection severity—depend on genome constituents. There has been a tremendous increase in bacterial genome-wide analyses. In this Special Issue, we intend to highlight the genome-wide analyses of pathogenicity determinants, CRISPR-Cas, type secretion systems, antimicrobial, EPS, and other important areas of genomics. Our aim is to provide a collection of manuscripts that describe the genomic biology and analyses of different bacterial pathogens. Research articles and reviews are invited.

Submissions on—but not limited to—the following topics are invited:

- Genome-wide comparative genomics;
- Bacterial phylogenomics, evolution, and speciation;
- Functional genomics;
- Analyses of pathogenicity determinants and CRISPR cas;
- Genome-informed molecular diagnostics.

Prof. Dr. Anne M. Alvarez

Message from the Editorial Board

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access:—free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed by the **Science Citation Index Expanded** (Web of Science), MEDLINE (PubMed), Scopus and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 14.2 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2020).
