Deadline for manuscript  
submissions:

**closed (31 December 2019)**

### Message from the Guest Editor

Cell adherence is changed when cells are exposed to microgravity. In human or animal cells, changes of adherence became especially apparent when scaffold-free organoid formation was investigated, which included the cells' detachment from the surface of the culture flasks, followed by three-dimensional aggregation. In this process, distinct proteins and genes coding for them contribute either to a cell's adherence to a substratum or to contact with neighboring cells. Furthermore, adhesion-dependent initiation of microbial biofilm formation can be triggered by microgravity-induced changes of gene expression patterns, protein accumulation, and carbohydrate metabolism.

Articles and reviews will be collected in which either the chemical/biochemical background of external signals is described, or cellular mechanisms are unveiled that up- or down-regulate the cells' adhesion to their environment under microgravity.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
