Message from the Guest Editors

Dear Colleagues,

This Special Issue, “Embryo-Maternal Interactions Underlying Reproduction in Mammals”, will include a selection of recent research topics and current review articles related to the study of embryo-maternal interactions in mammalian species during the preimplantation phase. Up-to-date review articles, commentaries as well as original experimental papers are welcome. Since the reproductive strategies show considerable differences between mammalian groups, articles are not restricted to a specific mammalian species and comparative approaches among species are also welcome.

Dr. Stefan Bauersachs

Dr. Carmen Almiñana

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
