Deadline for manuscript submissions:

closed (30 June 2022)

Message from the Guest Editors

Dear Colleague,

A number of physiological and pathological conditions are characterized by dynamic remodeling of the proteome and with a deep modification in the concentration of metabolites in the organism. On one hand, they lead to the discovery of new, biologically and clinically relevant biomarkers, for personalizing preventive and therapeutic interventions. On the other hand, they contribute new knowledge in terms of molecular mechanisms. Furthermore, the combined integrative genomics approaches with proteo-metabolomic investigations are developing rapidly.

For this Special Issue, we will address recent developments in the area of proteomics and metabolomics. Potential topics include but are not limited to the following:

Reference standards and intervals for clinical proteomics; Integrative genomics on the verge of proteomics and metabolomics:

Novel mass spectrometry methods for clinical practice; Bioinformatics for the analysis of proteomics and metabolomics data;

Molecular protein networks;

Targeted, untargeted metabolomics;

Specialsue

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
