Deadline for manuscript  
submissions:

**closed (30 June 2016)**

### Message from the Guest Editors

Dear Colleagues,

Nature employs a combination of triggers (e.g., chemical, mechanical) to create silk protein-based biomaterials with remarkable properties. The same proteins can be employed for the generation of novel materials with similar or perhaps even greater utility. In this Special Issue of the International Journal of Molecular Sciences, devoted to “Silk-based materials: from production to characterization”, we warmly invite submissions related to the underlying mechanisms of natural silk material production and the characterization of such materials.

Dr. John George Hardy

Dr. Chris Holland

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
