

Zinc Signaling in Physiology and Pathogenesis

Guest Editors:

Prof. Dr. Toshiyuki Fukada

Molecular and Cellular
Physiology, Faculty of
Pharmaceutical Sciences,
Tokushima Bunri University,
Tokushima 770-8514, Japan

Prof. Dr. Taiho Kambe

Division of Integrated Life
Science, Graduate School of
Biostudies, Kyoto University,
Kyoto, Japan

Deadline for manuscript
submissions:

closed (30 September 2017)

Message from the Guest Editors

This Special Issue focuses on crucial roles of zinc signaling in biological processes in molecular and physiological basis, addressing the future directions and questions underlying this unique phenomenon. Because there is growing interest and attention in physiopathological contribution of zinc signal, we believe this Special Issue will provide very timely information on it and thus should appeal to a wide range of readers.

The International Society for Zinc Biology Conference 2017 (ISZB-2017, http://www.uclan.ac.uk/conference_events/iszb-meeting-zino-net.php) will be held at Cyprus in 18-22 June 2017. All attendees presenting a paper at this conference are welcome to submit a manuscript for publication (Deadline: 30 September 2017). For further information, please contact the Editorial Office (ijms@mdpi.com or olivia.yu@mdpi.com).

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
