

Special Issue

Advances in Photobiomodulation Therapy

Message from the Guest Editor

The *International Journal of Molecular Sciences* invites submissions for a Special Issue on "Advances in Photobiomodulation Therapy". We encourage researchers to contribute both preclinical and clinical studies that investigate the molecular mechanisms, therapeutic applications, and clinical outcomes of photobiomodulation (PBM) in different human diseases. PBM has emerged as a promising non-invasive treatment modality, with growing evidence supporting its efficacy in pain management, wound healing, lung diseases, neurological disorders, and musculoskeletal rehabilitation. This Special Issue aims to provide a comprehensive platform for the latest advancements in PBM, exploring novel approaches, dose–response relationships, and translational research from bench to bedside. We invite you to share your cutting-edge findings and contribute to shaping the future of PBM in clinical practice. Submit your manuscript to help drive the progress in this rapidly expanding field.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
