Latest Advances in Oxidative Stress and Brain Injury

Message from the Guest Editor

Recent research underscores the critical role of reactive oxygen species (ROS) and oxidative stress in brain injury, spanning traumatic, degenerative, and endogenous insults. The excessive production of ROS due to excitotoxicity and depletion of the endogenous antioxidant system induces peroxidation of cellular and vascular structures, protein oxidation, and inhibition of the mitochondrial electron transport chain, causing oxidative cellular damage. While ROS imbalance disrupts cellular homeostasis—triggering lipid peroxidation, protein oxidation, and mitochondrial dysfunction—new evidence highlights mitochondrial DNA damage, neuroinflammation, and blood–brain barrier (BBB) disruption as key amplifiers of secondary injury. The increase in the defense mechanisms using exogenous antioxidants may be neuroprotective, but their clinical translation remains limited by bioavailability and timing.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
