

## Special Issue

# Genetics and Omics in Autoimmune Diseases

### Message from the Guest Editor

In this Special Issue, we invite the submission of original research articles, short communications, and reviews on current and emerging concepts in ADs. Topics of interest include genetics, genomics, transcriptomics, massive sequencing, etc., in ADs such as rheumatoid arthritis, systemic lupus erythematosus, Sjögren's syndrome, autoimmune thyroiditis, type 1 diabetes, multiple sclerosis, antiphospholipid syndrome, and IgG4-related disease, among others.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
