

## Special Issue

# Tumor Microenvironments: Molecular Mechanisms and Signaling Pathways Involved in Metastatic Progression

### Message from the Guest Editor

The present Special Issue, titled “Tumor Microenvironments: Molecular Mechanisms and Signaling Pathways Involved in Metastatic Progression”, aims to recent research developments to the wider community involved in this field. This Special Issue is Led by and assisted by our Topical Advisory Panel Member Dr. Luis Castro-Sánchez (University of Colima, Colima, México). We welcome contributions on the topic outlined above.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
