

## Special Issue

# Molecular Advances and New Insights in Organic Synthesis

### Message from the Guest Editor

This Special Issue will cover molecular advances including advanced bio-medicinal, optoelectronic, and light-triggered materials that are accessed, synthesized, and/or released by bio-organic, bio-mimetic, bio-enzymatic, light-triggered, bio-inorganic and green catalysis. Their rationalization and/or further demonstrations in bio-medicinal assays, AI calculation, materials applications, potential drug delivery (carriers or release), and potential pharmacophore are highly encouraged. The synthesis, properties' characterization and application of materials should focus on biological or molecular research.

---

### Guest Editor

Prof. Dr. Chien-Tien Chen

Department of Chemistry, National Tsing Hua University, Hsinchu 300, Taiwan

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
