

Special Issue

Natural Products in Cancer Prevention and Treatment—Second Edition

Message from the Guest Editors

This Special Issue will highlight the results of current preclinical and clinical studies focused on cancer and on anti-neoplastic therapeutic strategies involving natural products. In particular, it will provide an overview of novel molecular pathways targeted by natural products that are crucial for cancer treatments; we therefore invite researchers to contribute original articles and reviews on these topics.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
