

## Special Issue

# New Insight into Extracellular Vesicles in Proliferative Diseases

### Message from the Guest Editor

In this Special Issue, we aim to highlight the role of extracellular vesicles in proliferative diseases. Therefore, we invite researchers to contribute original research and up-to-date review articles that increase knowledge about the mechanisms involved in the synthesis, cargo or internalization of these vesicles. We also welcome articles that explore their use as biomarkers.

## About the Journal

### Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
