

Special Issue

Molecular Modeling: Latest Advances and Applications

Message from the Guest Editors

Recent advances in computational power, algorithmic efficiency, and interdisciplinary collaborations have led to significant breakthroughs in molecular modeling. The goal of this Special Issue is to highlight the state-of-the-art research in molecular modeling and its applications in a variety of fields, including new material development and pharmaceuticals. The contributions in this Special Issue highlight the critical role that molecular modeling plays in deepening our understanding of complex molecular systems by examining fresh approaches, theoretical discoveries, and practical applications of this field. This Special Issue offers an overview of current trends, difficulties, and future directions in molecular modeling, offering insightful viewpoints for researchers, practitioners, and educators alike.

Guest Editors

Dr. Maria Alexandra Mernea

Department of Anatomy, Animal Physiology and Biophysics, Faculty of Biology, University of Bucharest, Bucharest, Romania

Prof. Dr. Dan Mihailescu

Department of Anatomy, Animal Physiology and Biophysics, Faculty of Biology, University of Bucharest, Bucharest, Romania

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
