

Special Issue

Advanced Molecular Research of Gynecological Cancer

Message from the Guest Editor

This special issue explores the latest molecular research in gynecological cancers, focusing on advancements transforming diagnosis, treatment, and patient care. It covers ovarian, cervical, uterine, and endometrial cancers, highlighting the challenges and complexities of their molecular bases. Emphasis is placed on targeted therapy and immunotherapy, examining their roles in disrupting molecular pathways and leveraging the immune system. The tumor microenvironment's impact on cancer progression and chemoresistance is detailed. Innovative techniques like RNA sequencing, proteomics, and next-generation sequencing are showcased for uncovering new molecular targets. The issue addresses metastasis, molecular mechanisms of cancer spread, drug development, and bioinformatics, serving as a crucial resource for researchers and clinicians combating gynecological cancers.

Guest Editor

Dr. Suryavathi Viswanadhapalli

Department of Obstetrics and Gynecology, UT Health San Antonio, San Antonio, TX 78229, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
