## Molecular and Genomics Advances in Behaviours

### Message from the Guest Editor

The Special Issue "[Molecular and Genomics Advances in Behaviours](#)" will bring together cutting-edge research from the fields of molecular and genomic research to help us to understand the processes and relationships underlying different behaviors. We encourage the submission of original research articles, reviews, and short communications that address different aspects of the molecular and genomic bases of behavior. This Special Issue focuses primarily on human research but does not preclude the presentation of results from experiments on animals that model human behavior.

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
