

Special Issue

Gene Editing for Disease Modeling and Therapeutics

Message from the Guest Editor

This issue will accept manuscripts that use genome-edited, human-induced pluripotent stem cells (hiPSCs) as models for monogenic/complex diseases and as cells relevant for therapeutics. The gene editing methodology can be used for fixing mutations, creating mutations, and knocking out repressors or enhancers, etc., and as such can serve to generate disease models and their controls for both the studying of diseases and for their therapeutic potential (including issues of off target). Original research papers, reviews, and methodology papers on these topics and related topics are encouraged. They can deal with any issue relevant to genome editing.

Guest Editor

Dr. Rivka Ofir

Regenerative Medicine & Stem Cell Research Center, Ben-Gurion University and Dead Sea & Arava Science Center, Beer Sheva 84105, Israel

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
