

## Special Issue

# Genomic Research in Carcinogenesis, Cancer Progression and Recurrence

### Message from the Guest Editor

Current research highlights the importance of genomics in predicting tumor progression, identifying driver mutations, and informing personalized therapies in many types of cancer. This Special Issue will cover genomic alterations, driver mutations, tumor evolution metrics, and the integration of genomics with clinicopathological and artificial intelligence-aided approaches to predict and understand cancer outcomes, progression, and recurrence. Contributions will include a broad range of topics, such as:

- Genomic alterations in carcinogenesis: mechanisms of genetic and epigenetic changes leading to cancer initiation and driving carcinogenesis.
- Genomic drivers of cancer progression: identification and characterization of genomic mutations and variations that drive tumor growth and metastasis.
- Genomic markers for cancer recurrence: development and validation of genomic biomarkers for predicting cancer recurrence.
- Precision medicine and genomic targeting: applications of genomic data in personalized cancer therapies and targeted treatments.
- Bioinformatics and computational approaches: advanced computational methods for analyzing genomic data in cancer research.

### Guest Editor

Dr. Magdalena Orzechowska

Department of Molecular Carcinogenesis, Medical University of Lodz,  
90-752 Lodz, Poland

### Deadline for manuscript submissions

20 November 2025

## About the Journal

### Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

### Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle  
Marche, Via Ranieri 65, 60100 Ancona, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore  
- Q1 (Organic Chemistry)
