

Special Issue

Mesenchymal Stromal and Immune Cells' Involvement in Human Diseases and Their Treatment

Message from the Guest Editor

We are pleased to announce this thematic Special Issue on “Mesenchymal Stromal and Immune Cells' Involvement in Human Diseases and Their Treatment”. The main scope of the issue is to highlight the current state of knowledge of molecular mechanisms by which MSCs and other immune cells act in health and disease, exhibit potent paracrine properties, modulate host immune responses and inflammation, interact with the environment, and orchestrate tissue repair, at both the local and systemic levels. We welcome original research and up-to-date review papers. Generally, pure clinical research or model studies, survey studies, and correlation research are out of the scope of IJMS. However, clinical or model submissions with biomolecular experiments are welcomed. This special issue is supervised by Dr. Mirjana Jerkić and assisted by our Topical Advisory Panel Member Dr. Razieh Rabani (University of Toronto).

Guest Editor

Dr. Mirjana Jerkić

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
