Molecular Insights into Role of Anthranilic Acid in Neuropsychiatric Diseases

Message from the Guest Editor

This issue is dedicated to presenting the most recent achievements in studies of anthranilic acid's role in the pathogenesis of neuropsychiatric disorders, as well as the action mechanisms of pharmacological and non-pharmacological interventions and its potential as an early biomarker in neuropsychiatric disorders.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.
