Molecular Advances in Pathology, Diagnosis and Treatment of Gynaecological Cancers

Message from the Guest Editors

In the past decades, multimodal strategies consisting of surgery, radiation, and chemotherapy were the main choices for these patients with gynecologic malignancies. This research topic aims to provide updates on the newly identified molecular targets and developed therapeutic strategies for gynecological cancers, and to discuss the recent advances on the screening, diagnosis, therapies, and prognosis of gynecological cancers. We welcome submissions of articles which provide novel information in the fields encompassing, but not limited to, the identifications of cancer signaling pathways, potential therapeutic target discoveries, the development of new targeted drugs, and therapeutic strategies for gynecological cancers. The submitted articles in this research topic will help to highlight the current knowledge and trends regarding the targeted therapy of gynecological cancers.

Guest Editors

Dr. Valentina Tuninetti

Department of Oncology, University of Turin, Medical Oncology, Ordine Mauriziano Hospital, Turin, Italy

Dr. Alberto Farolfi

Istituto Scientifico Romagnolo per lo Studio e la Cura dei Tumori, Meldola, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
