

Special Issue

Interplay of Metabolism and Inflammation in Gastrointestinal Disease

Message from the Guest Editors

Gastrointestinal (GI) diseases represent a significant burden on global health, with inflammation and metabolic dysregulation often playing central roles in their pathogenesis. This Special Issue aims to explore the complex interactions between metabolic processes and inflammatory responses in the context of gastrointestinal diseases. We invite contributions that delve into molecular mechanisms, novel therapeutic targets, and innovative strategies for diagnosis and treatment. This Special Issue will serve as a comprehensive resource for researchers, clinicians, and healthcare professionals interested in understanding and addressing the intricate balance between metabolism and inflammation in GI diseases. Since *IJMS* is a journal of molecular science, pure clinical studies will not be suitable for our journal; however, clinical submissions that feature biomolecular experiments are welcome.

Guest Editors

Dr. Marios Papadakis

Department of Surgery II, University Hospital Witten-Herdecke,
University of Witten-Herdecke, Heusnerstrasse 40, 42283 Wuppertal,
Germany

Dr. Stavros P. Papadakos

First Department of Pathology, Medical School, National and
Kapodistrian University of Athens, 11527 Athens, Greece

Deadline for manuscript submissions

20 April 2026

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
