DNA Damage and Repair: Current Research

Message from the Guest Editors

We are constantly exposed to a wide range of endogenous and exogenous compounds—originating from metabolism, diet, the environment, clothing, cosmetics, pharmaceuticals, and more—about which relatively little is known regarding their potential to disrupt the homeostasis between DNA damage and its repair via various cellular mechanisms. Furthermore, the body of evidence highlighting the crucial role of DNA repair pathways in numerous diseases, as well as their potential therapeutic applications, continues to grow rapidly. With this in mind, this Special Volume, "DNA Damage and Repair: Current Research," welcomes the submission of original studies in this field. Our aim is to present a diverse collection of papers that reflect the breadth and depth of ongoing research on DNA damage and repair.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
