Special Issue

Current Research on Bioactives from Natural Products

Message from the Guest Editor

Products of natural origin have gained greater interest due to the health benefits of their compounds. Generally, these natural compounds present some biological activities (bioactives) such as those that are antimicrobial, anti-inflammatory, anti-cancer, antioxidant, etc., making them an interesting application to different areas such as the cosmetology, pharmaceutical and medical industries, and the preparation of different materials and foods. Therefore, this Special Issue aims to gather original research or comprehensive reviews related to the current research on the bioactives of natural products, providing an advanced forum for molecular studies in biology and chemistry. The scope of this Special Issue encompasses the following:

- Fundamental theoretical problems of broad interest in bioactive compounds in biology, chemistry, medicine, food, materials, etc.;
- Breakthrough experimental technical progress of broad interest in biology, chemistry, medicine, food, materials, etc.; of bioactive compounds from natural products;
- Application of the theories and novel technologies to specific experimental studies and calculations.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences, Sez-Biochimica, Faculty of Medicine, Università Politecnica delle Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
