Neurogenetics of Diseases

Message from the Guest Editor

Neurogenetic diseases are central and peripheral nervous system disorders caused by molecular defects in heritable material, usually DNA. An increased focus on neurogenetics in neurology is timely and critical. There is a relevant reason to hope for treatments and therapies in the coming years that will restore significant function to people affected by neurogenetic diseases. Thus, this Research Topic will include manuscripts that describe genotypes and phenotypes of the different forms of genetic diseases affecting the central and peripheral nervous systems, increase our understanding of their pathogenesis, and articulate strategies to use this knowledge to deliver novel therapeutic tools. The overall aim is to offer a broad perspective of our current knowledge on this topic and to underline the future need to develop therapies that reduce this unmet medical problem of our society.

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
