

Special Issue

Tumor Microenvironment and Drug Resistance

Message from the Guest Editor

We invite submissions for a Special Issue on “Tumor Microenvironment and Drug Resistance”, focusing on uncovering the pivotal role of the tumor microenvironment (TME) in driving therapeutic resistance. This Special Issue seeks cutting-edge research that deciphers the molecular and cellular mechanisms by which the TME fosters drug resistance, including the influence of stromal cells, immune infiltration, extracellular matrix remodeling, and hypoxia. We welcome original research articles, reviews, and concise communications that offer novel insights into targeting the TME to overcome resistance. This Special Issue aims to advance our understanding of the TME's role in cancer therapy resistance, with the goal of identifying innovative strategies for more effective treatment. By submitting this flyer, you can receive a 20% discount provided by the Editorial Office. https://www.mdpi.com/journal/ijms/special_issues/2N62U594X7

About the Journal

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of Odontostomatologic and Specialized Clinical Sciences,
Sez-Biochimica, Faculty of Medicine, Università Politecnica delle
Marche, Via Ranieri 65, 60100 Ancona, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore
- Q1 (Organic Chemistry)
