

Special Issue

Molecular Advances in Ovarian Cancer: 2nd Edition

Message from the Guest Editor

Ovarian cancer is the most lethal gynecological malignancy in the world due to the lack of early detection tools and effective therapeutic intervention. Healthcare related to these has been an important issue and remains to be explored. Recent studies have identified that each histotype of ovarian cancer shows different molecular mechanisms of carcinogenesis. This special issue aim to collect paper focused on pathogenesis, tumor microenvironment in Ovarian cancer progression.

About the Journal

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Prof. Dr. José L. Quiles
Department of Physiology, Institute of Nutrition and Food Technology
"Jose Mataix", Biomedical Research Center, University of Granada,
Avda. Conocimiento s/n, 18100 Armilla, Granada, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Organic Chemistry)
